**Subject:** RE: 8 Alden Ave

Dear Christopher,

Thank you for coming out to my home last week, and for the additional information provided. As far as I know, I do not yet have a claim to file against the city and/or its builders, though my home continues to experience occasional shifts, movements and vibrations as I've previously described.

Should things continue to get worse, I'll need to investigate this further on my own. As a homeowner in the city, do you know how I would go about getting access to the original city water, sewer, and infrastructure maps and drawings? Are they available online, or would I need to go to City Hall for such information?

Thanks,  
Robert

Good afternoon Robert,

It was a pleasure speaking with you earlier today. I completely understand your concerns regarding your property, especially given the high cost of homeownership today.

As requested, I am attaching the **Notice of Claim** form for you to complete if you believe your property has sustained damage due to the ongoing construction of the new Point of Pines Fire Station.

Please note that, as I mentioned during our conversation, the responsibility to demonstrate any damages rests with the resident. The City does not conduct independent investigations to substantiate claims.

Completed claim forms must be submitted either in person or via email to the City Solicitor's Office at [spelletier@revere.org](mailto:spelletier@revere.org).

When submitting your claim, please ensure you include the following information:

- Your full name, address, and phone number
- The date and time of the incident
- The specific location of the incident
- Itemized receipts for any costs incurred as a result of the incident
- Any supporting documentation, such as photographs or videos

Please don't hesitate to reach out if you have any questions or need further assistance.

***Chris Ciaramella***
