Subject: SPR25/2780 Determination, SPR25/2765 Determination

To Whom it May Concern,

My name is Robert Bamberg, and I am writing to you for guidance on how to proceed regarding two unfulfilled public information requests I recently filed. In both cases I needed to file appeals with the Supervisor of Records, which I have done. See SPR25/2780 and SPR25/2765.

According to SPR25/2780, my appeal for information from the Massachusetts Department of Transportation (MassDOT) was closed following MassDOT’s response on September 30, 2025. Unfortunately for me, in addition to not being responsive to my original request made on August 28, 2025, the response data provided by Mass DOT did not fulfill the original information request. See Public Records Request (MassDOT) P001904-082825 for more information on this case.

Regarding SPR25/2765, although the Supervisor of Records has found in my favor and instructed Revere City Clerk Ashley Melnik to release all available information, the city has chosen not to so. In her response email to myself and attorney Cinar, Ms. Melnik provided a response letter from the Revere Superintendent of Public Works Christopher Ciaramella. In Mr. Ciaramella’s response letter, the city again claims the right to withhold information based on

Exemptions (n) of the Massachusetts Public Records Law. G. L. c. 4, § 7(26)(n), and is unwilling to provide even redacted versions of such information.

I like to receive a response from the secretary's office so that I know that someone from the Supervisor of Records is actively following up with these groups on my behalf. Regarding SPR25/2780, I did reach out to attorney Cinar asking how I might reopen my original information request, but have not heard back from anyone. With regards to SPR/2765, attorney Cinar is aware of the City of Revere's response, but again I have not heard back from anyone from the Supervisor of Public Records Office.

Thank you,

Robert Bamberg

Dear Benjamin,

Thank you for responding to my email.

With regards to SPR25/2780, I do wish to file a further appeal with the Supervisor of Records. For additional information on this case, including copies of MassDOT's response and responsive record, I will be forwarding the email I sent to Attorney Cinar on October 2, 2025.

Regarding SPR25/2765, I can confirm that I did receive a response from Revere City Clerk Ashley Melnik. For additional information on this case, including Ms. Melnik's response and referenced letter from Revere Superintendent of Public Works Christopher Ciaramella, I will be forwarding the email that was sent Attorney Cinar and myself on October 20, 2025.

Please confirm receipt of my emails, and let me know if you need any additional information from me, or if there are any additional actions I need to take at this time. Thank you for your help in this matter.

Dear Ayca Cinar,

According to SPR25/2780 my appeal has been closed following MassDOT's response on September 30, 2025. (see attached *P001904_Responsive_Record.pdf* and *P001904-082825_Message_History.pdf* from MassDOT public records request website.)

I am not satisfied with the information provided by MassDOT, and would like to have my case re-opened. I had requested information that shows the area around my home at 8 Alden Ave from before and after construction of the new Alden Mills Firehouse, which was built between August 2020 and August 2025. In his written response, see P001904-082825_Message_History.pdf, Senior Counsel Stephen Shorey writes, "Attached please find a map of this

location. After consulting with the appropriate record holder, it is my understanding that this document is from 1971 and may not show the current condition.”.

The response drawings provided by MassDOT are from 1971 do not fulfill my original information request. If MassDOT does not maintain current drawings for the area, and 1971 is the most recent record available, then I would like Senior Counsel Stephen Shorey to state such in an amended response message from MassDOT.

Similarly, the information provided by Mr. Shorey did not include the area directly in and around my home lot at 8 Alden Ave. Is this because MassDOT does not have any data for the Point of Pines area outside of the Lynnway? I would like Mr. Shorey’s updated response message to also address why no data was provided showing my home’s lot.

Please let me know if there are any additional steps I need to take to have my case re-opened.

Thank you,
Robert Bamberg

Good afternoon,

The Massachusetts Department of Transportation (“MassDOT”) is in receipt of your request for public records described above, as well as the appeal SPR25/2780.

Attached please find a map of this location. After consulting with the appropriate record holder, it is my understanding that this document is from 1971 and may not show the current condition.

Dear Mr. Bamberg,

Your public records request (see below) has been automatically entered, and assigned our Reference Number **P001904-082825** for tracking purposes. Please note that your request is deemed received on the first

business day after it has been entered in accordance with the Massachusetts Public Records Law; this is an automated response and does not mean it has been viewed by our department if received outside of non-business hours.

As recommended by Ashley Melnik, the City Clerk of Revere, I am reaching out to DCR and MassDOT for any detailed maps they may control showing all city, state, and public/private utility lines around my home at 8 Alden Ave.

I am requesting this information as part of my investigation into the reason(s) why my home now shifts and moves when large vehicles pass by my home on the Lynnway outside the newly constructed Alden Mills Firehouse. As I requested from Ashley,

"I am looking to obtain detailed maps showing all city, state, public and private utility lines that run through the Point of Pines. Specifically I am looking for maps that include Delano Ave, Alden Ave, and Bickford Ave, along with a span of the Lynnway that abuts each of these 3 streets. Please reach out on my behalf to all entities that might control release of this information."

You can monitor the progress of your request at the link below, and will receive an email when your request has been completed, or requires any clarification and/or modification.

Thank you for using the [Massachusetts Department of Transportation's Public Records Request Center](#).

Dear Attorney Doyle:

I have received the petition of Robert Bamberg appealing the nonresponse of the Massachusetts Department of Transportation (Department/MassDOT) to a request for public records. See G. L. c. 66, § 10A; see also 950 C.M.R. 32.08(1). On August 28, 2025, Mr. Bamberg requested:

[1] [A]ny detailed maps they may control showing all city, state, and public/private utility lines around [an identified individual's] home at ... Alden Ave[;]

[2] [D]etailed maps showing all city, state, public and private utility lines that run through the Point of Pines. Specifically I am looking for maps that include Delano Ave, Alden Ave, and Bickford Ave, along with a span of the Lynnway that abuts each of these 3 streets[.]

Claiming to not yet have received responsive records, Mr. Bamberg petitioned this office and this appeal, SPR25/2780, was opened as a result.

Subsequently, I learned that the Department provided Mr. Bamberg with a response on September 30, 2025. Where this appeal was opened as a result of the Department's lack of a written response, I will now consider this administrative appeal closed. Mr. Bamberg may appeal the substantive nature of the Department's response within ninety (90) days. See 950 C.M.R. 32.08(1).

Public Records Request (MassDOT) 22 days ago

P001904-082825

In Progress

As recommended by Ashley Melnik, the City Clerk of Revere, I am reaching out to DCR and MassDOT for any detailed maps they may control showing all city, state, and public/private utility lines around my home at 8 Alden Ave. I am requesting this information as part of my investigation into the reason(s) why my home now shifts and moves when large vehicles pass by my home on the Lynnway outside the newly constructed Alden Mills Firehouse. As I requested from Ashley, "I am looking to obtain detailed maps showing all city, state, public and private utility lines that run through the Point of Pines. Specifically I am looking for maps that include Delano Ave, Alden Ave, and Bickford Ave, along with a span of the Lynnway that abuts each of these 3 streets. Please reach out on my behalf to all entities that might control release of this information."
